

Ananda sagar dahal

Front end developer

Undergoing a computer science degree from Tribhuwan University and an experience of about 1 and a half years in coding and teaching sector' I have developed coding skills and how to interact in mass of people. I'm an enthusiastic individual seeking a mid-level position where I can showcase and use my developed skills to develop different types of web and Android applications.

EXPERIENCE

Front end developer

griha sewa / itahari

I was actively learning front-end web development and had started delving into backend development using PHP and MySQL. However, due to the COVID-19 pandemic, I have unfortunately had to put my studies on hold and have fallen behind in my learning.

Teacher

safal siddhartha academy / itahari

I was involved in teaching field for 2 years. from there I got chance to learn how to interact with people and get experience how to teach. I have actively participated in professional development opportunities to enhance my teaching practice.
